

## **Doctors Hospital's Medical Equipment Sold at Auction**

**Publish Date:** 01/20/2006

Beds, medical instruments and X-ray machines from the former Doctors Hospital will end up in hospitals, medical clinics and veterinarians' offices around the globe after thousands of items from the bankrupt facility were sold at auction this week.

**Details:**

"American-made is still very sought after," said Dana Smith, 47, owner of KMA Remarketing Corp., who drove to Springfield from DuBois, Pa., to buy \$75,000 worth of medical equipment during the daylong auction Wednesday. "It's a big market," Smith said. "It's a huge, multibillion-dollar market."
